

45 Road Club 10 mile Time Trial

N7/10 - Wed 14th July

All kinds of weather tonight. After a day of intermittent showers we experienced a early bright evening. Then just as the race started it began to rain, by the time the last man went off it became a full storm complete with thunder and lighting.

14 year old Oliver became our youngest ever winner when he stopped the clock in 26.14 The time a 1½ minutes off his best, an indication of how severe the conditions were.

Once again Sam Barker was the fastest, another excellent ride in very adverse conditions.
